Renaissance Services SAOG

## UPDATE ON COVID 19 : 003/2020

Renaissance is closely monitoring the COVID 19 situation through local authorities in Oman, UAE and World Health Organization (WHO) updates. We remain committed to running our operations smoothly so that we can always offer our clients the best service solutions.

1. Effective of 26th March 2020, we have implemented a total 'Work from home' for all our Head office employees. This will be in force for two weeks but will be reviewed by our Business Resilience committee daily to cut short or extend.
2. We have enabled necessary online platforms and technologies for employees to work from home smoothly.

Our operational teams are doing an outstanding job ensuring uninterrupted service solutions to our clients.

Our Business Resilience Team on COVID 19 is currently meeting daily and reviewing the overall situation very closely.

At this stage, we have no concerns to report and we are in full control of the situation.
