Renaissance Services SAOG

UPDATE ON COVID 19: 23/07/2020

Renaissance is closely monitoring the COVID 19 situation through local authorities in Oman, UAE and World Health Organization (WHO) updates. We remain committed to running our operations smoothly so that we can always offer our clients the best service solutions.

We are extending our 'Work from home' program by another two weeks, up to and including Thursday, 6th of August 2020.

Our operational teams continue to do an outstanding job to sustain crucial services to the hospitals, oil & gas fields and other vital institutions, so they may remain fully operational, focused on their core roles.

Our Business Resilience Team is currently meeting daily and reviewing the current situation very closely.

At this stage, we have no concerns to report and we are in full control of the situation.
