Renaissance Services has been awarded an RO37mn hospital services contract by the Ministry of Health, the company said in an announcement to the Muscat Securities Market (MSM) on Thursday.

"The contract services arm of Renaissance Services has received an RO37mn contract award to provide catering, cleaning, laundry and pest control services at 34 hospitals for Oman's Ministry of Health (MoH)," Renaissance Services said in its disclosure.

The contract is for three years and will be operated by the company's Oman unit, Tawoos Industrial Services Co LLC (Tisco).

"The company had previously operated some 65 per cent of the services for MoH, but this new award constitutes an increase to over 85 per cent of the tendered work. The new contracts shall mobilise in June 2014," Renaissance Services said.
