## How To Change a Flat Tire

### How to change your tire:

- Find a safe location
- Turn on your hazard lights
- Apply the parking brakes
- Apply wheel wedges
- Remove the wheel cover
- Place the jack in the proper place
- Raise the vehicle with the jack
- **Remove the flat tire**
- Replace the flat tire
- Lower the vehicle completely
- Check the pressure in the spare tire

**Not everyone can change a car's tire, if you are unable or unsure,  
CALL FOR HELP!**

There's never a good time for a flat tire! That's why you should always be prepared.
