

* Helping to raise our safety awareness *

Oman Environment Day

Every year on the 8th of January Oman celebrates its beauty, and reflects the great role played by the Sultanate in preserving and caring for the environment.

There will be several programs happening around Oman which includes a clean-up of beaches and coral reefs in the Wilayat of Mirbat on the 15th of January, with the participation of the Royal Oman Police, the Municipality, the Civil Defence, diving clubs, voluntary teams and civil society. As well the Ministry and in cooperation with the national team's centres, conduct a campaign to cultivate wild and local plants on January 22.

On this day we strive to raise awareness to all groups of society and to take responsibility in order to instil the right environmental education in accordance with Omani customs and traditions.

Beauty has an address - Keep Oman Beautiful
