Food Safety (HACCP) Policy

Our policy is to provide products and services that meet the needs and expectations of our customers, ensuring high standards of food safety are maintained at all times.

In order to achieve this policy:-

We operate a Food Safety Management System (HACCP – Hazard Analysis Critical Control Point) in accordance with Codex Alimentarius.

Perquisite programmes shall be implemented and HACCP principles have been applied to manage food safety throughout the process, from purchase through to food service.

It is the responsibility of each and every member of our team – staff, supervisors, management and CEO - to be aware of our policy and be committed to providing safe food to all customers.

Company Management will show their visibility and management commitment through providing the required resources, training, audits etc.

In order to ensure the ongoing implementation, maintenance and effectiveness of the system, the CEO shall ensure the HACCP system is reviewed at least once every year for continual improvement of the Food Safety Management System.

As a food service provider our aim is to satisfy customer's requirements and exceed customer expectations in terms of quality, value, services and food safety.

Ananda Fernando
CEO
